Under Tile Build Up

Under tile implies that tiles are glued directly on top of your heating mat, making this an ideal solution for smaller areas that require fast heating times.

6 Tiles

5 Tile adhesive *
* we recommend a minimum 10-12mm layer of self-leveller to facilitate tiling.

4 Warmset UFH mat (3 - 5 mm thickness)

3 Insulation board (recommended but optional)

2 Insulation board glue

1 Concrete floor
